

Skytech

WIND BOX

TEHNICAL DATA:

- sending data about wind speed and direction- sensor TX-20 (8 directions, speed in gusts from 0-51m/s)
- sending air temperature data from -20° to 50°C (senzor DS18B20)
- display data on www.wind-portal.net
- power supply: 6-24V DC
- power consumption (12V) 20mA - everage
- built in GPRS modem QUAD BAND 850/900/1800/1900 Mhz
- dimension 120x80x30mm
- weight (without sensors) 300g
- operating temperature -20°C do 50°C
